News from the District Director, R.T. Floyd

I hope your fall has been going well so far and that preventative efforts have paid off in reducing injuries and illnesses. As always, this is a busy time as we conduct our regular business and prepare for the various NATA, SEATA and state association activities. I would like to call your attention to the deadlines and dates for many of these activities as listed later in this Newsletter and on the SEATA and NATA websites. We encourage your involvement in as many of these activities and events as your schedules will allow. We appreciate your review of the candidates and voting in the recent and current elections. Elections are an opportunity for everyone to have a say in your professional associations and exercising your right to vote can make a difference.

Please take some time to nominate your fellow members for the various honors and awards, both at the SEATA and NATA level. We have numerous members who, through their past work, leadership

and service, have made this a better profession for all of us and they our recognition.

From the NATA Board perspective, we are especially pleased to have reached a settlement in the Fair Practice lawsuit with the APTA. If you have not yet read the results of this settlement, I encourage you to do so via the NATA website. In other news we have agreed to support a project team in moving forward toward the development of an Intro to Sports Medicine Course for use in secondary schools. On a related note, we also agreed to move forward with a one-day secondary school student aide program at the Annual NATA Meeting. Additionally, we are researching the possibility of an NATA Sports Safety Course for coaches and parents to focus on risk management and ways to prevent injuries and illnesses. Finally, we have increased non-member registration fees for the NATA Annual Meeting to more closely reflect the value of

Floyd for all his time and efforts in helping keep our SEATA members informed by sending out SEATA eBlasts and Newsletters that arrive in your email. Log onto our SEATA website to see more information about SEATA activities.

I would like to thank all the SEATA members who have taken the time to participate in the recent SEATA elections. Your desire to take an active role in our profession should be commended. If you did not participate in the recent elections please plan to get involved in future SEATA functions. A special thank you to Donna

Wesley (MS President) for serving as the Chair of the Elections Committee. She has done an exceptional job. Your SEATA Board continues to meet throughout the year via conference calls. Please contact your State President or any officer on the SEATA Board if you have questions or suggestions to enhance SEATA activities.

A sad note – many of you were aware that SEATA lost a very active member and our SEATA Secretary this Fall. Lori Mobley Groover passed away from cancer. Thank you to the many SEATA members that sent support to Lori and her family. Many of us were able to attend her funeral. While this was a sad occasion it gave me the opportunity to reflect just how close and supportive the athletic training community is. We

Fair Practice Lawsuit - Did We Win?

Did we win? That's the question on the minds of members who read that the litigation brought by the NATA against the American Physical Therapy Association has been settled out of court. Yes, I think we did.

The parties agreed to create a Joint Statement, and that statement was issued in late September. To read more about it and watch a video by President Albohm, go to <http://www.nata.org/fairpractice/index.htm>. So the critical question is: what's in the Statement?

Its major provisions are:

- APTA acknowledges that athletic trainers are health care professionals authorized to provide interventions within their scope of practice.
- The APTA acknowledges that the scopes of practice of the two professions overlap.
- By signing the statement, the APTA agrees that athletic trainers work on "patients."
- The APTA agrees that PTs are not the exclusive providers of manual therapy, and ATs are qualified to provide manual therapy.
- APTA agrees that the Physical Medicine and Rehabilitation codes are not exclusive to any one particular provider, with the exception of the evaluation and re-evaluation codes for both AT and PT.

But it really shouldn't be a matter of winning or losing.

The initial complaint had to do with teaching and performing manual therapy, but the issues go much deeper. Many ATs feel that the attitude of the physical therapy profession is that athletic training and athletic trainers are unqualified, uneducated PT wanna be's. Yet, many work successfully alongside their physical therapy colleagues every day in an atmosphere of mutual respect and trust. This Statement should put many of the issues to rest.

What else does it mean? The Joint Statement extends far beyond the professional relationships. This is a document that can be shared with other health professionals, employers, patients, insurance companies and legislators.

Unfortunately, the APTA has posted FAQs on its website that appear to be intended to negate the Statement their president signed so recently.

This posting has upset many NATA members, and forced the NATA to write a rebuttal. Too lengthy to repeat here, go to <http://www.nata.org/fairpractice/FairPracticeSettlementDiscussion100809.pdf> to read the NATA response to the FAQ's.

You'll see that NATA believes the court did find the suit to have merit, a critical issue in any antitrust complaint, that ATs are qualified to perform certain forms of manual therapy and that PTs are not the exclusive providers of manual therapy, and that APTA has agreed not to make false or misleading statements about the athletic training profession.

In this great country, advocates are allowed to make their case before our legislative bodies. We expect the state PT associations to continue to vigorously represent their profession just as our state associations vigorously represent

athletic training. This signed Statement will help those lobbying on your behalf to set the record straight if any representations go too far. In the meantime, you should know that your professional organization has 'put its money where its mouth is' by taking this action. It also supports states seeking to update AT practice acts to align them with modern athletic training education, training, and practice.

Yes, this is a win for the profession and the people it serves.

GATA Scholarship Program Named in Honor of Lori Mobley Groover

The Executive Board of the Georgia Athletic Trainers' Association (GATA) has announced that its annual scholarship program has been renamed the **Lori Mobley Groover Leadership Awards**. Lori Mobley Groover served on GATA Executive Board from January 2003 through December 2006, serving as President from January 2005-December 2006. She later served as Secretary of the Southeast Athletic Trainers' Association (SEATA) from 2007-2009. Lori passed away on August 8, 2009 after a heroic battle against cancer. Throughout her athletic training career, Lori was a leader, often serving as a pioneer in new athletic training settings.

The GATA offers 3 scholarships each year, one for a high school student, one for a college student, and one for a college graduate student. Lori

was involved in all these areas during her career and "The Executive Board feels that Lori deserves to be remembered in a fashion befitting her passion and dedication," stated Michael Clanton, current GATA President.

The inaugural round of scholarships in the renamed program will be awarded as part of the 2010 annual meeting of the GATA in Peachtree City, GA on January 16 at the Wyndham Peachtree Conference Center. Lori's parents, Bobby and Sandy Mobley, will be at the Honors and Awards Ceremony to make the awards. Mr. Mobley stated "Sandy and I are really moved beyond words at this wonderful remembrance and honor in Lori's memory. We are truly amazed as we learn almost on a daily basis of the positive influences that she had on so many others; we had no idea. She was very special"

Scholarships totaling \$1000 are awarded each year by the GATA. Applications for the awards can be found on the association's website, www.athletictraining.org.
